David,

Here is the electronic version of the report **Ex. 5 - Deliberative Process**
Ex. 5 - Deliberative Process Reminder it addressed more than just changing the datum used to determine High Tide Line. It addressed other shoreline protections each agency can do. May want to point those things out that are located near the end of the report. Also want to point out the implementation section that discusses how all three agencies would work together to implement.

Christine,

Could you print a color copy for David to take with him when he travels to Oregon next week. Thanks so much.

Thanks
